# Project PROFILE

**CLIENT:** Ritter Communications

**LOCATION:** Marked Tree, AR

**PROJECT:** Head End Upgrade

**PROJECT SUMMARY:** Doubled the UPS capacity of the Head End Building. This required an additional 16KVA UPS. Balancing the circuits between each UPS. Added an additional service from the transfer switch. Rewired some circuits to correct a wiring problem on the original installation.

**PROJECT RESULTS:** After two after hours Shutdowns are equipment and wiring was completed successfully. An additional electric panel was installed for spare circuits.
